

#### RESOURCE PERSON:

### MR. G. JAYA KRISHNA

Jaya Krishna is a Senior Java Developer and passionate technical educator with strong expertise in DSA, Core & Advanced Java, Spring Framework, Spring Boot, and Microservices architecture. He also possesses solid frontend development skills in HTML, CSS, JavaScript, Bootstrap, and React.js, enabling him to design and develop complete end-to-end web applications.

As a trainer, he focuses on delivering practical, industry-ready skills that bridge the gap between academic learning and real-world software development. In this workshop, he will demonstrate how to build industry-ready Spring Boot applications integrated with AI, aligned with modern technology trends and industry demands.

## WHAT WILL YOU LEARN

- ✓ Build modern backend applications using Spring Boot
- ✓ Design and develop RESTful APIs with industry best practices
- ✓ Work with databases using Spring Data JPA & Hibernate
- ✓ Understand how AI integrates with Java applications
- ✓ Integrate AI APIs into Spring Boot apps (chatbots & smart features)
- ✓ Develop an AI-powered mini project for resume and interviews

## WORKSHOP OUTCOMES

By the end of the session, participants will:

- ✓ Understand how enterprise backend systems are built
- ✓ Know how to connect AI services with Java applications
- ✓ Gain practical knowledge useful for placements & internships
- ✓ Add a real-time AI + Spring Boot project to their resume
- ✓ Stay aligned with latest 2026 IT industry trends

An Academy of Excellence  
Organises

One Day National Virtual Workshop  
On

# SPRING BOOT WITH AI

Build the Future of Backend Development

 Saturday, February 14 2026  
10:00AM - 1:00PM (IST) & 3:00PM - 5:00PM(IST)

 Mode: Virtual

**VENKAT'S TIME**

Venkat's Time is an educational academy registered under (ISO 9001:2005 and MSME) a YouTube channel/platform focused on sharing knowledge and insights on various subjects. It was launched in the year 2023. The channel features engaging video content, explanations, and lessons on topics related English Literature and English Language Teaching and Educational Videos. The sole intention of *Venkat's Time* is to invite the academicians from various fields to share the knowledge among the enthusiasts. In this regard Venkat's Time has a credit to organize Virtual talks on Literature, ELT, Poetry and on general topics. It has the recognition to publish books on various themes on ELT and Literature, a series of Anthology on Poems were also published. It has the great opportunity to organize Three International Online Poetry Confluence on the occasion of Mothers Day, May Day, Friendship and also organized International Quiz (ONLINE) on the occasion of 75 years of India's Independence, Three Day International Conference (ONLINE), 7Day International FDP cum Short Term Course (ONLINE) and International Intensive Thesis Writing Workshop (ONLINE). Now it is organizing One Day National Level Workshop (ONLINE) on "SPRING BOOT with AI" on 14-02-2026 for the academicians, students and industry enthusiasts.

**VIGNORA EDGE**

"Vignora EDGE – Quality Tech Education for Every Corner, For Everyone."

Vignora EDGE is committed to making high-quality technology education accessible to everyone, everywhere. We offer industry-relevant courses in Java, Advanced Java, Spring, Spring Boot, Microservices, and Full Stack Development, along with front-end technologies like HTML, CSS, JavaScript, Bootstrap, and React JS. Our programs are designed to build real-world skills through practical learning, guided instruction, and certification that adds value to your career. By keeping our courses affordable without compromising on quality, Vignora EDGE ensures that learners from every background can gain the knowledge, confidence, and technical expertise needed to succeed in today's competitive IT industry.

## Certification

E-Certificate will be provided to all registered participants.

# WORKSHOP THEME

## Gen Z Oriented – Future-Ready Tech Skills

The IT industry in 2026 demands developers who can combine strong backend knowledge with AI-powered features. This workshop is specially designed to help students and professionals understand how modern applications are built using Spring Boot and how Artificial Intelligence can be integrated into real-world systems.

This is not just theory – participants will gain hands-on exposure to building intelligent backend applications aligned with current industry needs.

# WHO CAN JOIN?

- All UG & PG Students
- Faculty Members
- Industry Professionals & Tech Enthusiasts
- No prior AI experience required. Basic Java knowledge is helpful.
